

i have had xm radio for almost two years and i am very pleased with service and programing. i am a truck driver and travel nationwide. i feel it is unreasonable for local stations to try to restrict what i listen to on xm because i would not be listening to thier stations or buying from thier advertisers anyway since i only pass through thier areas and don't live or shop there. i do listen to local radio at home and listen to advertising in my area. therefore i feel it is unreasonable for laymakers to regulate what i am able to listen to on xm. please leave what i pay to listen to alone.
